

Vision Statement: To be an honorable and professional organization through ethical and innovative leadership at all levels, providing cost efficient, superior correctional services that return productive people to the community.

Director's message:

For the second year in a row the Department of Correction experienced an increase in the monthly population growth in excess of the ten year average. The monthly growth rate has increased from 40 per month in FY 2007 to 49 per month in calendar year 2007 to 65 per month in FY 2008. A report on prison growth rates released earlier this year by the Pew Center on the States ranked Arkansas' growth as the 15th highest in the nation.

The employees of the Department of Correction are to be commended for their continued professional dedication to their assigned tasks in light of this increasing pressure on the correctional system. Unfortunately, without a significant shift in sentencing laws and practices of the local courts, there is currently no end in sight for this upward trend. Population growth dictates that we address the increasing bed space needs as well as the security of the existing facilities. The acquisition of the Jefferson County Jail at the Randall L. Williams Unit in Pine Bluff and the continued construction of the Special Needs Unit at Malvern will help address some of the bed space issues. Construction of a lethal fence at the East Arkansas Regional Unit will provide an additional measure of security at that facility. Entrance monitoring has been initiated at the Varner, Cummins and Delta Units. When completed at all units entrance monitoring will assist in the tracking of visitors, staff and inmates within institutions.

Finally, I cannot say enough to express my satisfaction on the development of the Arkansas Association of Correctional Employees Trust (AACET). This program, designed for ADC employees to help other employees during catastrophic life altering events now has over 1,200 contributing members and has already assisted a number of ADC employees and their families. The selflessness of ADC employees when it comes to helping others in the ADC family is inspiring to say the least.

The achievements made during the past year were only accomplished through the continued efforts of Arkansas' professional correctional staff. It is on their behalf that I extend our thanks to the Governor, the General Assembly and the Board of Corrections for their support in our efforts to provide Arkansas with the best correctional system possible.

Sincerely,

Larry B. Norris

The Mission Statement of the Arkansas Department of Correction is to:

- Provide public safety by carrying out the mandates of the courts;
- Provide a safe, humane environment for staff and inmates;
- Provide programs to strengthen the work ethic;
- Provide opportunities for spiritual, mental, and physical growth.

Governor - Mike Beebe

annual report

Highlights fy 08

AACET

The Arkansas Association of Correctional Employees Trust (AACET) is a benevolent association that began in September of 2007 and is a direct support organization whereby ADC employees can provide financial assistance to their fellow employees in times of need. When a tragedy such as death, fire, critical illness, accident or other life changing circumstances occurs, AACET will provide support, help and comfort to employees and their families. ADC employees volunteer to serve on the board that oversees the management of funds raised through voluntary membership dues and fundraisers.

ADC Acquires Jefferson County Jail

With the opening of the new W. C. "Dub" Brassel Adult Detention Facility in Pine Bluff the former Jefferson County Jail was vacated by Jefferson County. The department purchased the 106 bed facility and the 10 acres of land it sits on for \$3 million dollars. These beds have been utilized to add additional space for intake and to relocate the special management barracks from the Cummins Unit. Adjacent to the department's facility, this purchase raised the total capacity of the Jefferson County Jail Correctional Facility to 498. With the jail function eliminated, it was appropriate to rename the facility. In April, 2008 the facility was renamed in honor of Randall L. Williams. Williams, a former Circuit Judge for Jefferson County served on the Board of Correction and as Chairman of the Board from 1993 to 2000.

One in 100: Behind Bars in America 2008

The PEW Center on the States released a report entitled One in 100: Behind Bars in America 2008 detailing the growth in prison population across the United States and the corresponding rising costs of incarceration. While Arkansas ranked in the middle of the fifty states in regards to our incarceration rate we ranked 15th in prison population growth and 10th in percentage of total general fund expenditure. Nationally an average of one dollar out of every 15 dollars of state's budgets goes to corrections. This cost is driving some states to look at ways to reduce prison admissions and/or reduce the length of stay for prisoners. The report concluded that while prisons

have been the weapon of choice in the battle against crime in the past, continuing to expand prisons will accomplish less and cost more.

Common Fare Kitchen

A common fare kitchen was established at the Cummins Unit for preparation of meals to satisfy the religious dietary requirements of some ADC inmates. Until this kitchen was established such meals were prepared at four locations across the state and were supplemented with an appropriate pre-packaged meal. Now common fare meals are cooked, packaged, and frozen in one location to await delivery where needed. While these meals cost about 30% more than the regularly prepared meals, they are less than half the cost of the previously purchased pre-packaged meals. The common fare kitchen serves roughly 1% of the inmate population.

Entrance Monitoring

The implementation of the entrance monitoring project began at both the Varner Unit and the Delta Unit in FY08. This project works in conjunction with the electronic Offender Management Information System (eOMIS) utilizing smart cards and biometric scanners to monitor, approve and track the movement of persons in and out of the facility. The initial phase of this project will focus on the visitation check-in process. Visitor identification and background information is verified, approval to visit is ascertained and time of arrival and departure is tracked electronically and stored in eOMIS. The project will eventually incorporate employee and inmate entrance and exit tracking and will have an internal inmate tracking feature.

Correctional Officer Provisional Certification Program

Initial steps were taken by the ADC, Ouachita Technical College and several other state to cooperate with the American Correctional Association and the National Partnership for Careers in Law, Public Safety, Corrections and Security to develop a Correctional Officer Provisional Certification program. This program will be a nationally recognized certification program for
